U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On August 24, 1975
 - Export shipments in
Current Marketing Year
 - Daily Sales reported
August 25, - September 2, 1975
- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on release of September 4, 1975 (based on reports from exporters during the week ending August 24, unless otherwise noted):

USDA LOWERS ESTIMATE OF SOVIET GRAIN PRODUCTION: On August 29, USDA lowered its estimate of 1975 Soviet grain production to 175.0 million metric tons (MT)--a decline of 5.0 million MT from the August 11 estimate. The new appraisal, based on a decreased acreage evaluation provided by the Soviets under the 1973 US-USSR Agreement on Cooperation in Agriculture, includes 85.0 million MT of wheat, an estimate unchanged since late July; 77.0 million MT of coarse grains, and 13.0 million MT of miscellaneous grains (buckwheat, pulses, rice). USDA continues to estimate Soviet import requirements for the 1975/76 marketing year at about 25.0 million MT with part of the decline in production likely to be offset by Soviet adjustments in stocks, consumption, and exports to Eastern Europe.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 1,289,300 MT to a total of 14.0 million MT. Accumulated exports for this marketing year now total 5.0 million MT--20 percent higher than the total of 4.2 million MT reported by the Bureau of the Census at this time last year. Apparently anticipating curtailed Soviet exports, some East European countries continued to be large purchasers of U.S. wheat, with outstanding sales to Eastern Europe now up to 1.7 million MT compared with only 70,000 MT at this time last year. Total commitments to East Germany rose by 451,800 MT (reported last week under the daily reporting system) and commitments to Poland increased by 353,800 MT (of which 129,032 MT was reported last week under the daily reporting system). Other major changes were higher commitments to Japan of 202,200 MT and to Pakistan of 115,000 MT, and a decline in the commitment to the European Community (EC) of 77,200 MT.

Feedgrains: Total corn commitments for 1974/75 increased by 235,300 MT with an increase of 93,800 MT to the EC representing the only major change. For 1975/76, total outstanding sales rose by 587,700 MT, with outstanding sales to Japan increasing by 296,000 MT to 1.8 million MT. Outstanding sales to Eastern Europe (East Germany and Poland) increased by 117,800 MT to a total of 1.8 million MT. Under the daily reporting system, a sale of 101,604 MT to an unknown destination was reported on August 27.

Outstanding sorghum sales for 1975/76 increased by 208,400 MT, largely accounted for by increased sales of 111,300 MT to Japan and minor sales to the EC and Poland.

Soybeans: The apparent export commitment for 1974/75 declined by 112,000 MT, primarily on the basis of lower commitments to Japan (80,200 MT) and EC destinations (28,200 MT). The decreased commitments were apparently transferred to 1975/76 for which the apparent export commitment increased by 156,400 MT to Japan and by 128,700 MT to the EC. Exports at the end of 51 weeks of 1974/75 were reported as 11.8 million MT. Official Census Bureau export data for the full 1974/75 soybean marketing year will not be available until late September.

According to CACEX officials, Brazilian soybean crushers have given up their soybean export privileges. Their allocation to export soybeans has been transferred to the cooperatives. Cooperatives can now also export soybeans bought by the government under the price support program. It was previously reported erroneously that all export registrations for soybeans had been suspended.

Soybean Oilcake and Meal: With only 5 weeks remaining in 1974/75, the apparent export commitment remained practically unchanged. Exports increased to 105,600 MT with the EC (89,600 MT) and Czechoslovakia (11,400 MT) being the major takers.

Cotton: The apparent export commitment for 1975/76 rose on the basis of good demand from Japan for cotton stapling 1-1/16 inches or longer. At 100,000 running bales (RB), new sales were more than 4 times the most recent 10 week average. These sales are thought to represent covering of short positions held by Japanese merchant houses.

On May 30, 1975, U.S. shippers held past due contracts signed before August 1, 1974, with buyers from the Republic of Korea, the Republic of China (Taiwan), and the Philippines for 912,000 RB. By August 29, 1975, letters of credit had been opened against these contracts for about 518,000 RB.
